CashPilot GmbH and Skoor GmbH join forces to address the growing demand for data visualization in the Cash Management industry.

The constantly growing customer demand by Banks, Retailer and Cash-In-Transit Companies to visualize their operational data as well as the performance of the outsourcing partner against agreed Service-Levels (SLA´s) and Key Performance Indicators (KPI´s) has led to the decision to join forces between CashPilot GmbH and Skoor GmbH.

Austrian based CashPilot GmbH stands for Artificial Intelligence based End-2-End modular Cash Management solutions to optimize the cash logistics of Banks, Retailers and Cash-In-Transit Companies globally. Cash Cycle Optimization, ATM Monitoring, Cash Reconciliation, and seamless Tracking & Tracing unleashes all conceivable optimization potentials leading to cost reductions and maximal efficiency while ensuring highest cash availability.

SKOOR is a Swiss IT solution provider based in Wallisellen (ZH). Since 2001, the team has been developing exclusively Swiss Made Business Software, with which you can consolidate relevant information at all management levels, analyze it in real time and thus create an immediate basis for decision-making in order to manage your business optimally and proactively.

"CashPilot GmbH as well established one stop boutique software development company has always listened and understood the needs of their customers. As a globally unique provider for E2E modular Cash Management software and with the long-term commitment by their visionary shareholders we are proud to join forces and strengthen our footprint in the global banking and retail industry."

Martin Schneider, CEO
Skoor GmbH

"The cooperation with Skoor GmbH will strengthen the reporting capabilities of our E2E Modular Cash Management solution suite CashPilot®. Transparency of all relevant data from the Operational Units to the Top Management within a bank, retailer or CIT company can be achieved with the Skoor solution and will be fully integrated as CashPilot® - Management Information Solution (MIS) in our portfolio."

Johannes Sautner, Managing Director
Cash Pilot GmbH

Unity is strength ...
